Glossary (see ACOTE Policy [IV.C. Classification of Accreditation Categories](#) for the complete definitions):

Accreditation granted following an initial on-site evaluation: The accreditation review process confirms that the program is in full compliance with all the ACOTE Accreditation Standards for a Doctoral-Degree-Level or Master's-Degree-Level Educational Program for the Occupational Therapist or a Baccalaureate-Degree-Level or Associate-Degree-Level Educational Program for the Occupational Therapy Assistant.

At the time of ACOTE action to grant Accreditation, ACOTE awards an accreditation period based on the following criteria:

- 5-year review cycles are the standard number of years for initial accreditation; and
- 7-year review cycles are granted to those programs that have no areas of noncompliance and have demonstrated exceptional educational quality.

Accreditation Deferred following an initial on-site evaluation: The accreditation review process confirms that the program is not in substantial compliance with the ACOTE Accreditation Standards for a Doctoral-Degree-Level or Master's-Degree-Level Educational Program for the Occupational Therapist or a Baccalaureate-Degree-Level or Associate-Degree-Level Educational Program for the Occupational Therapy Assistant. The program may maintain Preaccreditation Status until all areas of noncompliance are resolved and not to exceed 5 years.

Accreditation granted following a reaccreditation on-site evaluation: The accreditation review process confirms that the program is in full compliance with all the ACOTE Accreditation Standards for a Doctoral-Degree-Level or Master's-Degree-Level Educational Program for the Occupational Therapist or a Baccalaureate-Degree-Level or Associate-Degree-Level Educational Program for the Occupational Therapy Assistant.

Continuing Accreditation with Conditions granted following a reaccreditation on-site evaluation: The accreditation review process confirms that the program is not in compliance with one or more of the ACOTE Accreditation Standards for a Doctoral-Degree-Level or Master's-Degree-Level Educational Program for the Occupational Therapist or a Baccalaureate-Degree-Level or Associate-Degree-Level Educational Program for the Occupational Therapy Assistant. The program's current accreditation status will be extended until all areas of noncompliance are resolved.

Once the program has come into full compliance, a new accreditation term will be awarded. The amount of time the program maintained continuing accreditation with warning or probationary status will be deducted from the new accreditation term.

At the time of ACOTE action to grant Accreditation or Accreditation with Conditions, ACOTE awards an accreditation period based on the following criteria:

- 5-year review cycles are given to programs that raise significant concerns as determined by ACOTE;
- 7-year review cycles are the standard number of years for reaccreditation; and
- 10-year review cycles are granted to those programs that have no areas of noncompliance and have demonstrated exceptional educational quality.

Probationary Accreditation or Continuing Accreditation-Probationary: Probationary Accreditation is an accreditation category. During a period of Probationary Accreditation, programs are recognized and listed as being accredited. Probationary Accreditation is usually limited to 1 year. However, extensions may be granted by ACOTE for good cause. Programs receiving ACOTE's notification of a change of status to Probationary Accreditation must notify currently enrolled students and those seeking admission that the program has been placed on probation. Probationary status may be removed when the program has demonstrated it is in substantial compliance with the Standards:

- Because the areas of noncompliance are resolved, or
- Because the program has documented significant progress toward compliance with the cited areas of noncompliance within the allowed time period.

Failure to come into substantial compliance with the Standards within the allowed time period will result in a change of status to Accreditation Withdrawn.

Inactive Status: *Inactive status is a special status applied only to programs that are not currently enrolling new students and do not plan to enroll new students in the future. The status “inactive” does not replace any other current accreditation status. The designation follows the regular accreditation status (e.g., Accreditation—Inactive or Probationary Accreditation—Inactive). Students graduating from a program with Accreditation—Inactive or Probationary Accreditation—Inactive status are considered graduates of an accredited program.*

Grant an Accreditation Term: *Based on ACOTE’s determination that the program has come into full compliance, a new accreditation term is awarded. For reaccredited programs, the amount of time the program maintained continuing accreditation with warning status has been deducted from the new accreditation term.*

Accreditation terms for programs that were cited with no more than two areas of noncompliance may be extended if the areas are corrected within 1 year of ACOTE’s action on the Report of On-Site Evaluation. For initial programs, terms may be extended from 5 to 7 years; for reaccredited programs, terms may be extended from 7 to 10 years. This decision is based on ACOTE’s review of the Plan of Correction or Progress Report submitted by the program and a determination that the program has fully resolved the cited areas of noncompliance.

Accreditation Withdrawn – Voluntary: *A classification assigned when a sponsoring institution requests to discontinue or withdraw a program’s accreditation.*

Accreditation Withdrawn – Involuntary: *A classification assigned when a program fails to achieve or maintain substantial compliance with ACOTE Standards or administrative requirements. This action may occur immediately in cases of critical noncompliance or threats to student welfare, or after probation if deficiencies remain unresolved within required timeframes. Programs with this status must implement a teach-out plan or agreement to ensure equitable treatment of enrolled students and help them complete their education.*

Preaccreditation Status Granted: *The proposed program would appear to meet the Standards if fully implemented in accordance with the plans of the sponsoring institution. An initial on-site evaluation will be conducted before an accreditation decision is made.*

Candidacy Status Granted: *The proposed program may now admit its first class of students according to the approved timeline and proceed to step 2 of the initial accreditation process (the preaccreditation review), which will be followed by step 3 (the initial on-site evaluation). Candidacy Status indicates that the program meets the requirements for Candidacy Status and the plans and resource allocations for the proposed program, if fully implemented, appear to demonstrate the ability to comply with the 2018 ACOTE Accreditation Standards.*

Candidacy Status Deferred: *Information received from the program is incomplete and/or insufficient for evaluation. Supplementary information is requested for consideration at a subsequent ACOTE meeting.*

As of August 3, 2025, the number of programs in the accreditation process totaled

Program Status	OTD	OTM	OTA-B	OTA-A	Total
Accredited	141	159	7	207	514*
Candidate or Preaccreditation	49	17	11	5	82
Applicant	32	15	2	8	57
Total	222	191	20	220	653

653. *Of the total Accredited programs, 7 OTM and 15 OTA programs have Accreditation-Inactive status. Additional information regarding occupational therapy accreditation may be obtained from the ACOTE Web page (www.acoteonline.org) or from accreditation staff at accred@aota.org.
