
Listing of Educational Programs in Occupational Therapy

October 1991

The American Occupational Therapy Association in collaboration with the Committee on Allied Health Education and Accreditation of the American Medical Association is officially recognized as the accrediting agency for **entry-level** educational programs for the occupational therapist and the occupational therapy assistant. The Council on Postsecondary Accreditation and the U.S. Department of Education require that a list of accredited educational programs be published annually.

The following **entry-level** programs are accredited by the Committee on Allied Health Education and Accreditation of the American Medical Association in collaboration with the American Occupational Therapy Association. The status of accreditation includes the following categories:

- Accreditation** The program is in substantial compliance with the *Essentials*.
- Probationary Accreditation** At the occasion of its most recent review, the program was not in substantial compliance with one or more of the *Essentials*.
- Administrative Probationary Accreditation** The program does not comply with one or more of the administrative requirements for maintaining accreditation, such as, it has failed to pay a fee or file a report in a timely manner.

All programs listed below hold one of the above three accreditation statuses. Designation of the specific status is not included in this list. For specific information, contact the program directly.

On-site evaluations for program accreditation are conducted at 5-year intervals for initial accreditation and 7-year intervals for continuing accreditation. The dates on this list indicate the academic year the next evaluation is anticipated.
