
List of Educational Programs in Occupational Therapy

August 2013

The Accreditation Council for Occupational Therapy Education (ACOTE[®]) of the American Occupational Therapy Association is officially recognized as the accrediting agency for entry-level educational programs for the occupational therapist and occupational therapy assistant in the United States and its territories. The U.S. Department of Education and the Council for Higher Education Accreditation require that a list of accredited educational programs be published annually.

The following entry-level programs are accredited by ACOTE. The status of accreditation includes the following categories:

- **Accreditation**—The program is in substantial compliance with the ACOTE Accreditation Standards.
- **Probationary Accreditation**—At the occasion of its most recent review, the program was not in substantial compliance with one or more of the Standards.
- **Administrative Probationary Accreditation**—The program does not comply with one or more of the administrative requirements for maintaining accreditation, such as timely payment of an accreditation fee or timely submission of a required report.

All programs listed below hold one of the above three accreditation statuses. Designation of the specific status is not included on this list. For specific information, contact the program directly.

On-site evaluations for program accreditation are conducted at 5- or 7-year intervals for initial accreditation and 5-, 7-, or 10-year intervals for continuing accreditation. The dates on this list indicate the academic year the next evaluation is anticipated.
