Glossary:

Accreditation granted following an initial on-site evaluation: The accreditation review process confirms that the program is in full compliance with all the ACOTE Accreditation Standards for a Doctoral-Degree-Level or Master's-Degree-Level Educational Program for the Occupational Therapist or a Baccalaureate-Degree-Level or Associate-Degree-Level Educational Program for the Occupational Therapy Assistant.

At the time of ACOTE action to grant Accreditation, ACOTE awards an accreditation period based on the following criteria:

- 5-year review cycles are the standard number of years for initial accreditation; and
- 7-year review cycles are granted to those programs that have no areas of noncompliance and have demonstrated exceptional educational quality.

Accreditation Deferred following an initial on-site evaluation: The accreditation review process confirms that the program is not in substantial compliance with the ACOTE Accreditation Standards for a Doctoral-Degree-Level or Master's-Degree-Level Educational Program for the Occupational Therapist or a Baccalaureate-Degree-Level or Associate-Degree-Level Educational Program for the Occupational Therapy Assistant. The program may maintain Preaccreditation Status until all areas of noncompliance are resolved and not to exceed 5 years.

Accreditation granted following a reaccreditation on-site evaluation: The accreditation review process confirms that the program is in full compliance with all the ACOTE Accreditation Standards for a Doctoral-Degree-Level or Master's-Degree-Level Educational Program for the Occupational Therapist or a Baccalaureate-Degree-Level or Associate-Degree-Level Educational Program for the Occupational Therapy Assistant.

Accreditation with Conditions granted following a reaccreditation on-site evaluation: The accreditation review process confirms that the program is in substantial compliance with the ACOTE Accreditation Standards for a Doctoral-Degree-Level or Master's-Degree-Level Educational Program for the Occupational Therapist or a Baccalaureate-Degree-Level or Associate-Degree-Level Educational Program for the Occupational Therapy Assistant. A program in **substantial compliance** with the Standards may have areas of concern with one or more specific Standards that are believed to be readily correctable with appropriate evidence provided within 60 days of ACOTE action or a monitoring report due within one year. Once the areas of concern are corrected, the accreditation status will be changed to Accreditation.

Continuing Accreditation with Warning granted following a reaccreditation on-site evaluation: The accreditation review process confirms that the program is not in compliance with one or more of the ACOTE Accreditation Standards for a Doctoral-Degree-Level or Master's-Degree-Level Educational Program for the Occupational Therapist or a Baccalaureate-Degree-Level or Associate-Degree-Level Educational Program for the Occupational Therapy Assistant. The program's current accreditation status will be extended until all areas of noncompliance are resolved.

Once the program has come into full compliance, a new accreditation term will be awarded. The amount of time the program maintained continuing accreditation with warning or probationary status will be deducted from the new accreditation term.

At the time of ACOTE action to grant Accreditation or Accreditation with Conditions, ACOTE awards an accreditation period based on the following criteria:

- 5-year review cycles are given to programs that raise significant concerns as determined by ACOTE;
- 7-year review cycles are the standard number of years for reaccreditation; and
- 10-year review cycles are granted to those programs that have no areas of noncompliance and have demonstrated exceptional educational quality.

Probationary Accreditation or Continuing Accreditation-Probationary: Probationary Accreditation is an accreditation category. During a period of Probationary Accreditation, programs are recognized and listed as being accredited. Probationary Accreditation is usually limited to 1 year. However, extensions may be granted by ACOTE for good cause. Programs receiving ACOTE's notification of a change of status to Probationary Accreditation must notify currently enrolled students and those seeking admission that the program has been placed on probation. Probationary status may be removed when the program has demonstrated it is in substantial compliance with the Standards:

- Because the areas of noncompliance are resolved, or
- Because the program has documented significant progress toward compliance with the cited areas of noncompliance within the allowed time period.

Failure to come into substantial compliance with the Standards within the allowed time period will result in a change of status to Accreditation Withdrawn.

Inactive Status: Inactive status is a special status applied only to programs that are **not currently enrolling new students** and do not plan to enroll new students in the future. The status “inactive” does not replace any other current accreditation status. The designation follows the regular accreditation status (e.g., Accreditation—Inactive or Probationary Accreditation—Inactive). Students graduating from a program with Accreditation—Inactive or Probationary Accreditation—Inactive status are considered graduates of an accredited program.

Grant an Accreditation Term: Based on ACOTE’s determination that the program has come into full compliance, a new accreditation term is awarded. For reaccredited programs, the amount of time the program maintained continuing accreditation with warning status has been deducted from the new accreditation term.

Accreditation terms for programs that were cited with no more than two areas of noncompliance may be extended if the areas are corrected within 1 year of ACOTE’s action on the Report of On-Site Evaluation. For initial programs, terms may be extended from 5 to 7 years; for reaccredited programs, terms may be extended from 7 to 10 years. This decision is based on ACOTE’s review of the Plan of Correction or Progress Report submitted by the program and a determination that the program has fully resolved the cited areas of noncompliance.

Candidacy Status Granted: The proposed program may now admit its first class of students according to the approved timeline and proceed to step 2 of the initial accreditation process (the preaccreditation review), which will be followed by step 3 (the initial on-site evaluation). Candidacy Status indicates that the program meets the requirements for Candidacy Status and the plans and resource allocations for the proposed program, if fully implemented, appear to demonstrate the ability to comply with the 2018 ACOTE Accreditation Standards.

Candidacy Status Deferred: Information received from the program is incomplete and/or insufficient for evaluation. Supplementary information is requested for consideration at a subsequent ACOTE meeting.

As of April 5, 2025, the number of programs in the accreditation process totaled 660.

Program Status	OTD	OTM	OTA-B	OTA-A	Total
Accredited	129	161	5	214	509*
Candidate or Preaccreditation	54	17	11	5	87
Applicant	37	15	4	8	64
Total	220	193	20	227	660

*Of the total Accredited programs, 6 OTM and 9 OTA programs have Accreditation-Inactive status.
